SUMMARY

Computer Engineering graduate and aspiring Full Stack Developer skilled in JavaScript, React.js, Node.js, and MongoDB. Experienced in building responsive web applications, RESTful APIs, and scalable backends. Passionate about developing clean, efficient, and user-centric software solutions. Completed an internship at IBM SkillsBuild, gaining analytical and problem-solving experience applicable to modern web systems.

TECHNICAL SKILLS

- Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), Responsive Design
- Backend: Node.js, Express.js, REST APIs
- Database: MongoDB Atlas, MySQL, Firebase
- Tools: Git/GitHub, Postman, VS Code
- Concepts: Authentication, Routing, State Management, Agile, TDD

EXPERIENCE

Data Analyst Intern at IBM SkillsBuild

Jun 2023 - July 2023

- Analyzed large datasets using Python and visualization libraries to extract actionable insights.
- Built predictive models to forecast outcomes and support data-driven decisions.
- Developed a solid understanding of software problem-solving and analytical workflows.

PROJECTS

AI-Powered IPC Section Prediction and Case Retrieval System

- Created an NLP-driven tool to predict IPC sections, punishments, and case references using SentenceTransformer, ChromaDB, and Gemini API.
- Improved efficiency in legal research by integrating advanced text retrieval and prediction algorithms.
- Focused on scalability, transparency, and user experience for law enforcement and legal professionals.

Sales Analysis and Prediction For Multiple Products

- Built a full-stack web application with a user-friendly dashboard for analyzing sales, profit margins, and revenue by category.
- Integrated SARIMA models with Streamlit for accurate time-series forecasting and dynamic visualizations.
- Enabled dataset uploads, generating predictive insights to aid business intelligence and strategy.

Drowsiness Detection System

- Developed a real-time safety application using OpenCV, Dlib, and MySQL for facial landmark detection and eye aspect ratio analysis.
- Implemented alerts with timestamped logging and frame capture for post-analysis.
- Designed a React.js frontend for interactive display and user engagement.

EDUCATION

Bachelor of Engineering (B.E.) - Computer

Dec 2021 - May 2025

Vidyavardhini's College of Engineering and Technology (VCET) - (CGPA - 7.14)

Higher Secondary School Certificate - Science

Jul 2019 - May 2021

Holy Family Convent Jr. College (Grade - 90.00%)

Primary and Secondary Education

2007 - May 2019

Vidya Vikasini School ICSE (Grade - 80.00%)

CERTIFICATION

- [React training](#) – Internshala
- [Fundamentals of Node.js](#) – UpGrad

LANGUAGES

English – Working Proficiency

Hindi – Native
